### Crescent City

Crescent City

a one of the most beautiful locations in Florda. The town is in the southerstern part of Futnam county, & miles from Falanka, and is reached by either steamer or railroad. Crescent Unit less on high grand which rises gracefully from the west bank of Grescent Lake, a beautiful sheet of clear water is miles in length and from three to five miles in width. The place is well inid out in town and grove lots, the former constituting a portion of the town but six blocks in width lying between two latus-lake Grescent on the cost and take Stella on the west. The lovel of lake Stella is 45 foot nigher than that of lake Grescent this affording perfect drainage. The water of lake Stella has its source in sp. ings and is kept absolutely sure by the town authorities who have made it a misdemeaner to in any way contaminat it.

The Plant System Italiway touches the west bank of lake Stella two miles from the town and a little steamer conveys passengers and freight to and from the town and Grescent City Junction, the railway station.

The trip by steamer from Palataka or Jackson, will is one of the most delightful water rides in the whole country, and the passenger who takes this trip is held entranced from start to dinish. At a point nine miles south of Palataka the steamer leaves the St. Johns and enters Deep river, a rather mirrow but tortums stream lined on wither side by a thick growth of cypress, ash and palmetto—a veritable forest primeval. The river's curves are sharp and frequent and there is nover a long teach of water in sight. After nine miles of travel intrough this stream the steamer emerges into the broad and boautiful Lake Crescent. A run of an hour and a half lands the, passenger at Grescent City, the steamer's southermost banding. The boat leaves Jacksonville at 8 a., m. every Tuesday, Thursday and Saturday! Palata at 3 p. m. ins same days. Returning the boat leaves of present for Crescent City on Monday. Wednesday and Friday at 7 a. m., arriving at 1 a lataka, at 10 a. m. and at Jacksonville at

The streets are lined with shade trees and the nailyelity coaks, and broad shell walks are laid on the principal streets. Bicycle paths lead in many directions.

Ice cream and cake will be for sale." The secretary does not state where the social will be held, but that will get noised abroad, we trust, so that these young workers will have a house full of people who will bring their ice cream and cake appetites with them as well as the wherewithal to gratify the said appetites.

### Make the Punishment Fit the Crime.

Arthur Davis, a young negro boy living at Shell Bluff, was before Justice Hurlbut on Saturday morning charged with larceny. He was found guilty and sentenced to three months in the county jail. Davis had only been released from the county jail a few days before, where he had served a 20 days sentence for stealing a bicycle from C. L. Chamtence so severe. The boy is a degenerate. This is indicated by the clam shell. In cases of this kind, where the value of the stolen goods is small-not over two dollars-it seems like a useless waste of public money to send the boy to jail. His conviction and keep for the 90 days Editor PALATKA NEWS: will probably cost the county \$50, and what is more the punishment will do him no good. It is not only not reformatory, but is just the rethe boy was put on an auction block whipping post. For one dollar the state could have 80 lashes administered in public, and feel sure that it was getting something for its money. As it is the boy will stay in jail ing her friend, Mrs. Keels, of Jack- 90 days, get three meals a day and a pretty thorough training in the science of crime.
